“ There are so many memories that I have of my uncle Brian. He was such a good uncle to my brother, Chris and I. I remember cuddling up with him in his big lazy boy recliner, playing at aunt Maria & uncle Brian's home and visiting in the summers. I love you uncle Brian. ❤️

“ Brian was a kid magnet. When he would come to visit his mom, the kids were so glad to see him, as were we all. One day they were playing in the front yard and the ice cream truck came by. I don't think any of them had ever gotten a special treat from the ice cream truck and Brian told everybody to choose a special treat. There is another Uncle Brian in the family, so when the kids want to refer to Brian Cloud, they say, "you know the one that bought us the ice cream." something else they remember him for is that he really listened to them. We miss him.

CC

Brian will be missed. He was gentle, kind and gave me a lot of grace. He was a loyal, helpful son to Grandma Dorothy, with faithful telephone calls and amazing care.
