“ I can not think how hard this is, I miss you every minute, I was so glad we kept our promises and I held you in my arms until the very end and was able to let you know I was always there. I LOVE YOU MOM and hope the pain I am feeling gets easier! Rest in Peace Mom and know I think of you every minute

“ It meant a lot to me that Mom has been sending me cards and calling me on the phone for the last 13 years, even though Mark and I are not together. She made me feel good about myself. She suffered so much with her cancer but remained strong for so long. When someone passes on a special day, like Christmas, means they want you to remember them on that day always. I think she will be remembered always. Prayers are with the entire Growe family from my family. God bless.
