“ I was so sorry to hear of Dorothy's passing, unfortunately I found out too late to attend the services. I wish I would have been there. Dorothy was a good friend since we worked together at USS Tubing Specialties Met Lab in the late 70's early 80's. I was very young when I started there and she took me under her wing and mentored me. It was much appreciated. She also helped me make some ceramic gifts for friends/relatives, we had fun working on them together. That is when I got to know Frank before he died, what a character. I also got to meet Dan and I was glad she found someone that was so good to her.

We've stayed in touch for many years, mainly by email. I know she hasn't returned my emails in a long time. I suspected something was up. What a classy lady! Who could forget her furs and her jewels. She was always dressed beautifully, even at the mill! I don't ever remember meeting them, but I feel like I knew Frank and Karen, she talked about them often, she was so proud of all her kids. My deepest sympathy to all of you, we all lost a wonderful lady.##imported-begin##Sharon Newell##imported-end##
