“ Jenny was one of the most wonderful friend I have ever known. She was smart, kind, and HARD working. She was always there for me and was a good friend. She was kind to strangers and would give all she had to help someone. Not many people will know why, but everytime I hear the theme from Rawhide i think of Jen. We will miss her dearly. The World lost a guiding light. May she find peace and happiness in Heaven. My prayers go out to all the family.
