“ A letter to my mother-in-law, Judy
Your son in law is going to miss you more than you will ever know. Because of the distance between us, our time spent with each other was all too short, but I cherish the wonderful memories that we do share. I know how much you loved Hawaii and the fun experiences that we had there. Visits to Mama's Fish House will never be the same but it will always remind me of you. I'm going to miss my Polish lessons (the good words and the bad ones!) and our conversations about WW II history. And, I know that you were always up for a dinner and a show. We all know that behind that sometimes tough exterior lay a kind hearted person evident in how much you loved and cherished your family. No matter your health condition, you were always concerned about my health and mine and Desiree's welfare before your own. You are truly a good soul. Heaven is lucky to have you. I love you and miss you and will keep you in my heart. Until we meet again, take care of Peanut, farewell and God bless you.
Love, Roland
