“ *Len and I were MHA classmates and both had our residency year in Kansas City MO but at different hospitals. Both families lived "together" in a new side by side duplex. The garage was under the house and we always entered from the garage and walked up a stairway in the center of the house. At top of the stairs there were two doors, left and right, which opened into our houses. When we visited it we just opened one door and entered the other. It was a good year for all of us.*
