“ I was diagnosed of MSA disease in 2021 but my first symptoms occurred in 2019.. I had severe symptoms ranging from tremors, trouble walking, Stiff muscles whole body weakness, rigidity and stiffness. I was given medications which helped but only for a short period of time, so I decided to try alternative measures and began MSA-5 treatment program from Aknniherbs Center (Visit aknniherbscentre.com). This treatment program has made a huge difference for me, I had improved with walking, balance, tremors, increased appetite, no stiffness or rigidity. I am so very thankful
