“ I knew Martin a.k.a. Marty in high school. He drove a dark green Corvette and dated Marjo Shaver off / on for quite some time.

After high school he and my former husband went off to Indianapolis to attend Lincoln Tech and work on the Docks at UPS. The three of us lived together in an apartment and then a large house on acreage.

We had some great times!!! I will always remember Marty's laugh!!! Together we raised a very large garden, many animals, including dogs, cats, guinea pigs, a red fox and a raccoon named, of course Rocky!

Rest in Peace, Marty and may your memory be eternal.....DS
