BW

“ I was thinking about my father Irving Winkler today. I then to recall some of his closest friends from my past. Morrie was one of his closest. Many times I would see them in New Jersey or where ever my dad was residing.

My first recollection was from around the early 1950's. I always had a very good feeling around Morrie. He always made me laugh and was very nice and affectionate with me.

I am saddened to hear of his passing. He will always be in my thoughts.
