“ I have known Mr. Marich for many years and will miss him greatly. He visited the library where I worked several times a week. We would have wonderful conversation about his younger days, family, and politics. He referred to me as alias Dorothy after his dear sister. I am glad that we were friends and I had the opportunity to share my life with him. My deepest condolence goes out to his family and friends.##imported-begin##Betty##imported-end##
