“ Walking to school everyday with Paul (sometimes with our thumbs out, hoping to get a ride) and one time we were picked up by HPD (Hobarts finest) and as we sat in the backseat on our way to “jail” the officer received a call on his radio that a woman had found a motorcycle in her garage that she didn’t own. So he let us out in town so he could go to the call!! Just one of many fond memories that I had with Paul.
