*I met Rosa in 1976 and we were probably both 23 years old. Our husbands worked together in the steel mill and I went to school with David. We both had three daughters close to the same ages. We had a lot in common, but I was in Porter County and she was in Lake County. No matter how seldom we visited we remained friends.*

*I remember once she saw my mother-in-law's knitted doily and she took it home and copied the pattern. She was so talented, way beyond her years. She was one of the best cooks that I have ever known. We always looked forward to getting together for any meal.*

*I remember she was going into the hospital for something cancer-related and through a blood test found out that she was pregnant. She had a hard decision to make and decided to wait for the procedure and have Lena first. That right there, tells you what a great woman she was!*

*I think about her and miss her! RIP my dear, you left a hell of a legacy! Great job! ❤️*
